Amendments to the Claims

The following listing of claims will replace all prior versions and listings of claims in the application:

Listing of Claims:

1. – 16. Cancelled.

17. (currently amended) A computer implemented method of generating a document, comprising:

receiving a document template;

receiving content data;

combining the document template and the content data to generate a document;

publishing the document to a current location;

identifying a current ~~location of~~ uniform resource locator (URL) in the document;

identifying a new ~~location for the~~ URL corresponding to the current URL in the document;

modifying the document based on the new ~~location~~ URL to generate a modified document; and

publishing the document to ~~the~~ a new location.

18. (previously presented) The method of claim 17, wherein the content data is received through a second user interface having functionality defined by a first user interface.

19. (previously presented) The method of claim 18, wherein functionality of the second user interface is determined by the document template.

20. (previously presented) The method of claim 17, wherein the document template defines an editable section.

21. (previously presented) The method of claim 18, wherein the content data is received from a user.

2

22. (previously presented) The method of claim 18, wherein functionality defined by the first user interface allows a user to add content data to a first document template and prevents the user from adding content data to a second document template.

23. (currently amended) The method of claim 17, wherein the new ~~location~~ URL for the document identifies a publish type.

24. (previously presented) The method of claim 23, wherein the publish type is a page preview.

25. (previously presented) The method of claim 23, wherein the publish type is a local publish.

26. (previously presented) The method of claim 23, wherein the publish type is an external publish.

27. (previously presented) The method of claim 23, wherein the publish type is a local stage.

28. (previously presented) The method of claim 23, wherein the publish type is an external stage.

29. (currently amended) The method of claim 17, further comprising modifying a second document based on the new ~~location~~ URL of the document to generate a modified second document.

30. (previously presented) The method of claim 17, further comprising publishing the second document to the new location.

31. (new) The method of claim 17, further comprising determining whether the document needs to be modified based on a context of the URL.
